User Stories Task

US-2.1: As a user, I want to receive reminders when items are nearing expiration.

US-2.2: As a user, I want to be able to receive recipes with my given inventory.

US-2.3: As a user, I want to be able to add users to my household and share an inventory

To-DO

✅ 2.1 – manual user expiration input and have reminders reoccur as current date approaches expiration date

✅ 2.2 – Integrating recipe API which uses context to find best recipes

✅ 2.1 – script which will run daily and count down to expiration date

✅ 2.3 – integrating backend database with frontend to allow for user login and saving products

2.3 – develop functionality for shared/private inventories

Task In Progress

receipt scanner

frontend revamping

✅ recipe apis
